

Who We are!

# Our Products & Services!

- The corebusiness with customised testfixtures is driving the company. That gives Columbia a wide customerbase.
- As an added value we supply complete testsystems from our marketleading suppliers. It give the customers the opportunity to get all tester HW from one supplier.
- Columbia can also help the customer in choosing teststrategy.

## 2013: Merger between

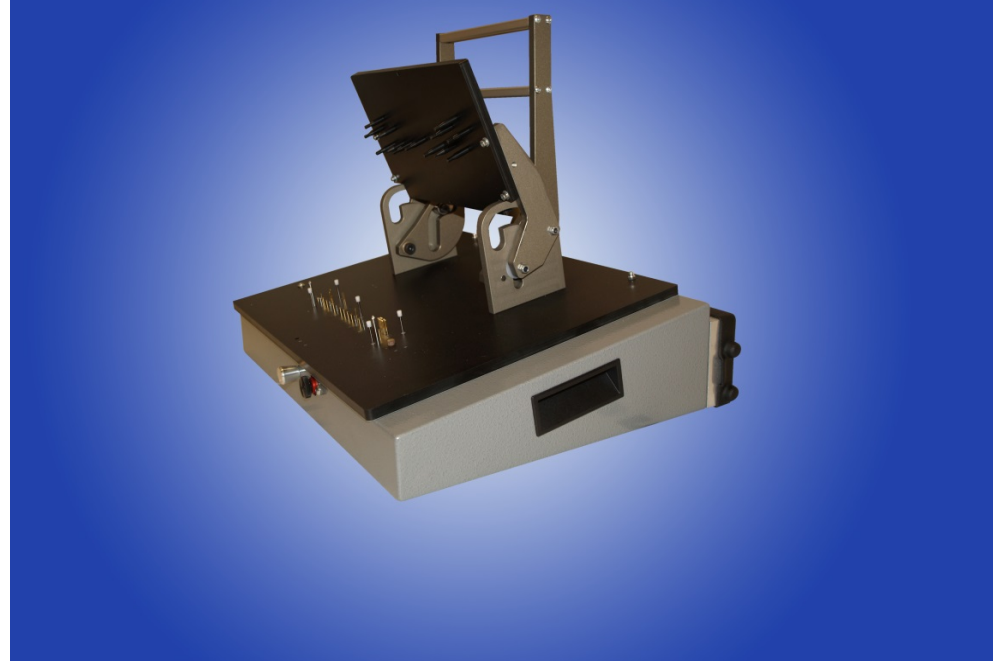

- After the merge, Columbia became a "complete" supplier for test to the electronics industry. Flying probe, ICT & functional test systems.
- In the area manufacturing process we also now got SPI and Selective soldering machines in the product portfolio.
